STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION (Act of August 12, 1970; Section 3685; Title 39 United States Code) Date of Filing—October 1, 2005. Title of Publication—*Journal of Wound, Ostomy, and Continence Nursing* (WOCN); Frequency of Issue—Bimonthly; Annual Subscription Price—$69.00; Location of Known Office of Publication—Lippincott Williams & Wilkins, Inc., 16522 Hunters Green Parkway, Hagerstown, MD 21740-2116; Location of the Headquarters or General Business Offices of the Publisher—Lippincott Williams & Wilkins, Inc., 530 Walnut Street, Philadelphia, PA 19106; Publisher—Lippincott Williams & Wilkins, Inc., 530 Walnut Street, Philadelphia, PA 19106; Editor—Katherine Moore, PhD, RN, 3rd Fl Clinical Sciences Bldg, Univ of Alberta, Edmonton, Alberta, Canada T6G 2G3. Managing Editor—Cynthia Wells, Lippincott Williams & Wilkins, Inc., 530 Walnut Street, Philadelphia, PA 19106; Owner—Wound, Ostomy and Continence Nurses Society, 15000 Commerce Parkway, Ste C, Mount Laurel, NJ 08054. Known Bond Holders, Mortgagees, and other security holders owning or holding 1 percent or more of the total amount of bonds, mortgages, or other securities—None. A. Total no. of copies printed (net press run), average 7,956, actual 6,600. B. Paid and/or requested circulation 1. Paid/requested outside-county mail subscriptions stated on form 3541, average 4,980, actual 4,653; 2. Paid in-county subscriptions, none; 3. Sales through dealers and carriers, street vendors, counter sales, and other non-USPS paid distribution, average 272, actual 257; 4. Other classes mailed through the USPS, none. C. Total paid and/or requested circulation [sum of B (1), (2), (3), and (4)], average 5,252, actual 4,910. D. Free distribution by mail (samples, complimentary, and other free). Outside-county as stated on form 3541, average 168, actual 281; 2. In-county as stated on form 3541, none; 3. Other classes mailed through the USPS, none. E. Free distribution outside the mail (carriers or other means), average 13, actual 22. F. Total free distribution (sum of D and E), average 181, actual 303. G. Total distribution (sum of C and F), average 5,433, actual 5,213. H. Copies not distributed, average 2,523, actual 1,387. I. Total (sum of G and H), average 7,956, actual 6,600. Percent paid and/or requested circulation, average 96.67%, actual 94.19%. I certify that the statements made by me above are correct and complete. *Jeffrey Brown, Manager, Periodicals Operations.*

2005 Subject Index

A

Abdominal wound
Home care management of an ostomy within a dehisced abdominal wound (Brogna and Hocevar [commentary]), 2005;32:200

Abstracts
Scientific and Clinical Abstracts From the 37th Annual Wound, Ostomy and Continence Conference, 2005;32:S1-S37(May-June, Supp. 2)

Advanced practice registered nurse
Advanced practice registered nurse update: issues of evolving complexity . . . stay informed (Guest Editorial) (Walden and Wright), 2005;32:1

Analgesics
Do topical analgesics reduce pain associated with wound dressing changes or debridement of chronic wounds? (Evans and Gray), 2005;32:287

Anorexia-cachexia syndrome
Cancer anorexia-cachexia syndrome: psychological effect on the patient and family (McClement), 2005;32:264

B

Bariatric surgery
Current issues and challenges in the management of bariatric patients (Bell), 2005;32:386
Meeting bariatric patient care needs: procedure and protocol development (Wright and Bauer), 2005;32:402
Surgical treatment for obesity: ensuring success (Andris), 2005;32:393

BCT (balsam Peru, hydrogenated castor oil, trypsin) ointment
Comparison of pressure ulcer treatment in long-term care facilities: clinical outcomes and impact on cost (Narayanan et al), 2005;32:163
Management of radiation dermatitis in a patient after mastectomy (McDougall et al), 2005;32:337

Bed bath
Does "arriving" mean we give up the bed bath? (Moore) (Editorial), 2005;32:285

Behavioral interventions
Behavioral interventions for the patient with overactive bladder (Wyman), 2005;32:S11(May-June, Supp. 1)

Biofeedback
Does biofeedback improve the efficacy of pelvic floor muscle rehabilitation for urinary incontinence or overactive bladder dysfunction in women? (Gray and David), 2005;32:222
Pelvic floor muscle training with biofeedback and bladder training in elderly women: a feasibility study (Perrin et al), 2005;32:186

Bladder training
Pelvic floor muscle training with biofeedback and bladder training in elderly women: a feasibility study (Perrin et al), 2005;32:186

Bolton, Laura
Research Manuscript Award: 2004, 2005;32:341

Book Review
Dorey, G.: *The Conservative Treatment of Male Urinary Incontinence and Erectile Dysfunction*, 2005;32:6

Bowel preparation
Mechanical bowel preparation before elective colorectal surgery (Gray and Colwell), 2005;32:360

Braden Scale
The Braden Scale for predicting pressure sore risk: reflections on the perioperative period (Letter) (Bergstrom et al), 2005;32:79

Breast cancer
Management of radiation dermatitis in a patient after mastectomy (McDougall et al), 2005;32:337

C

Cancer
Cancer anorexia-cachexia syndrome: psychological effect on the patient and family (McClement), 2005;32:264

Catheters/catheterization
Addressing the challenge of providing nursing care for elderly men suffering from urethral erosion (LeBlanc and Christensen), 2005;32:131
Clamping short-term indwelling catheters: a systematic review of the evidence (Fernandez and Griffiths), 2005;32:329
Use of catheter-securement device in pediatric patients with decreased skin integrity (Weber et al), 2005;32:269

Clinical practice guidelines
Implementing nursing practice guidelines: a complex undertaking (Wallin et al), 2005;32:294

Colorectal surgery
Mechanical bowel preparation before elective colorectal surgery (Gray and Colwell), 2005;32:360

Colostomy
Health-related quality of life among persons living in Japan with a permanent colostomy (Ito et al), 2005;32:178

Communication
Information to the relatives of people with ostomies: is it satisfactory and adequate? (Persson et al), 2005;32:238

Compression therapy
Is the Unna's Boot Bandage as effective as a four-layer wrap for managing venous leg ulcers? (Davis and Gray), 2005;32:152

Computer technology
Effectiveness of a computer-based system to deliver a continence health promotion intervention (Boyington et al), 2005;32:246
Continence Education Package
Development, implementation, and evaluation of a continence education package in acute and subacute care settings (O'Connell et al), 2005;32:101
Continence health promotion
Effectiveness of a computer-based system to deliver a continence health promotion intervention (Boyington et al), 2005;32:246
Continent ileostomy
Thirty years of experience living with a continent ileostomy: bad restrooms—not my reservoir—decide my life (Berndtsson et al), 2005;32:321
Continuing education
Development of a risk assessment tool for intraoperative pressure ulcers (Price et al), 2005;32:19
Gaining control: making sense of OAB, 2005;32:S1-S26(May-June, Supp. 1)
Health-related quality of life among persons living in Japan with a permanent colostomy (Ito et al), 2005;32:178
Pessary treatment of pelvic relaxation (Nguyen and Jones), 2005;32:255
Sexuality and the person with a stoma: implications for comprehensive WOC nursing practice (Junkin and Beitz), 2005;32:121
Thirty years of experience living with a continent ileostomy: bad restrooms—not my reservoir—decide my life (Berndtsson et al), 2005;32:321
Crawley-Coha, Teri
Clinical Manuscript Award: 2004, 2005;32:341

D
Darifenacin
Pharmacologic management of overactive bladder (Taylor), 2005;32:S16(May-June, Supp. 1)
Debridement
Do topical analgesics reduce pain associated with wound dressing changes or debridement of chronic wounds? (Evans and Gray), 2005;32:287
Decubitus ulcer. *See* **Pressure ulcers**
Descriptive study
Descriptive study of peristomal complications (Ratliff et al), 2005;32:33
Diabetes mellitus
Health-related quality of life in patients with diabetes with foot ulcers: literature review (Goodridge et al), 2005;32:368
Digital images
The use of digital images in evaluating homecare nurses' knowledge of wound assessment (Buckley et al), 2005;32:307
Dressings
Do topical analgesics reduce pain associated with wound dressing changes or debridement of chronic wounds? (Evans and Gray), 2005;32:287

E
Economic issues
Comparison of pressure ulcer treatment in long-term care facilities: clinical outcomes and impact on cost (Narayanan et al), 2005;32:163
Current issues and challenges in the management of bariatric patients (Bell), 2005;32:386
Writing a grant proposal: Part 6. The budget, budget justification, and resource environment (Bliss), 2005;32:365
Editorial. *See also* **Guest Editorial**
Barriers to funding research in urinary incontinence (Moore), 2005;32:219
Does "arriving" mean we give up the bed bath? (Moore), 2005;32:285
JWOCN turns 32! (Moore), 2005;32:358
Keeping up journal integrity: the peer review process (Moore), 2005;32:3
Education
Development, implementation, and evaluation of a continence education package in acute and subacute care settings (O'Connell et al), 2005;32:101
Meeting bariatric patient care needs: procedure and protocol development (Wright and Bauer), 2005;32:402
Promoting effective preceptorship experiences (Yonge et al), 2005;32:407
The use of digital images in evaluating homecare nurses' knowledge of wound assessment (Buckley et al), 2005;32:307
European Pressure Ulcer Advisory Panel
Statement of the European Pressure Ulcer Advisory Panel—pressure ulcer classification: differentiation between pressure ulcers and moisture lesions (Delfoor et al), 2005;32:302
Evidence-based Report Card
Counseling patients undergoing urinary diversion: does the type of diversion influence quality of life? (Gray and Beitz), 2005;32:7
Does biofeedback improve the efficacy of pelvic floor muscle rehabilitation for urinary incontinence or overactive bladder dysfunction in women? (Gray and David), 2005;32:222
Do topical analgesics reduce pain associated with wound dressing changes or debridement of chronic wounds? (Evans and Gray), 2005;32:287
Is the Unna's Boot Bandage as effective as a four-layer wrap for managing venous leg ulcers? (Davis and Gray), 2005;32:152
Mechanical bowel preparation before elective colorectal surgery (Gray and Colwell), 2005;32:360
What treatments are effective for the management of peristomal hernia? (Gray et al), 2005;32:87

F
Family issues
Cancer anorexia-cachexia syndrome: psychological effect on the patient and family (McClement), 2005;32:264
Information to the relatives of people with ostomies: is it satisfactory and adequate? (Persson et al), 2005;32:238
Fecal incontinence
Managing fecal incontinence (Letter) (Watterworth and Ryzeuski), 2005;32:217
Foot ulcers
Health-related quality of life in patients with diabetes with foot ulcers: literature review (Goodridge et al), 2005;32:368

G
Geriatric population
Addressing the challenge of providing nursing care for elderly men suffering from urethral erosion (LeBlanc and Christensen), 2005;32:131
Pelvic floor muscle training with biofeedback and bladder training in elderly women: a feasibility study (Perrin et al), 2005;32:186
Grant proposal
Preparing a grant proposal: Part 2. Reviewing the literature (Gray and Bliss), 2005;32:83
Preparing a grant proposal: Part 5. Organization and revision (Colwell et al), 2005;32:291

Preparing a successful grant proposal: Part 1. Developing research aims and the significance of the project (Beitz and Bliss), 2005;32:16
Writing a grant proposal: Part 1: Research methods (Engberg and Bliss), 2005;32:157
Writing a grant proposal: Part 2. Research methods—part 2 (Bliss and Savik), 2005;32:226
Writing a grant proposal: Part 6. The budget, budget justification, and resource environment (Bliss), 2005;32:365
Guest Editorial. *See also* **Editorial**
Advanced practice registered nurse update: issues of evolving complexity . . . stay informed (Walden and Wright), 2005;32:1
Budding bariatrics (Conroy), 2005;32:356
Leadership: able, willing, and available (Mackey), 2005;32:81
The rest of the story (McNichol), 2005;32:151
WCET and WOCN: what is the difference? (Smits), 2005;32:354

H
Health-related quality of life. *See* **Quality of life**
Heel pressure-relief device
Research comparing three heel ulcer-prevention devices (Gilcreast et al), 2005;32:112
Hemangioma
Management of infants with ulcerated hemangiomas (Ceballos and Rogers [commentary]), 2005;32:58
Hernia
What treatments are effective for the management of peristomal hernia? (Gray et al), 2005;32:87
Home healthcare
Get the picture! Developing a wound photography competency for homecare nurses (Buckley et al), 2005;32:171
Home care management of an ostomy within a dehisced abdominal wound (Brogna and Hocevar [commentary]), 2005;32:200
The use of digital images in evaluating homecare nurses' knowledge of wound assessment (Buckley et al), 2005;32:307

I
Incontinence
Breaking the cycle of stigmatization: managing the stigma of incontinence in social interactions (Garcia et al), 2005;32:38
Development, implementation, and evaluation of a continence education package in acute and subacute care settings (O'Connell et al), 2005;32:101
Effectiveness of a computer-based system to deliver a continence health promotion intervention (Boyington et al), 2005;32:246
Pelvic floor muscle training with biofeedback and bladder training in elderly women: a feasibility study (Perrin et al), 2005;32:186
Pessary treatment of pelvic relaxation (Nguyen and Jones), 2005;32:255
The ramifications of perspective: how theory focuses research, data, and practice (Morse), 2005;32:93
Infants
Management of infants with ulcerated hemangiomas (Ceballos and Rogers [commentary]), 2005;32:58

J
Journal of Wound, Ostomy and Continence Nursing
JWOCN turns 32! (Moore) (Editorial), 2005;32:358
Keeping up journal integrity: the peer review process (Moore) (Editorial), 2005;32:3
Manuscript award winners: 2004, 2005;32:341

K
Kock pouch
Thirty years of experience living with a continent ileostomy: bad restrooms—not my reservoir—decide my life (Berndtsson et al), 2005;32:321

L
Leg ulcers
Is the Unna's Boot Bandage as effective as a four-layer wrap for managing venous leg ulcers? (Davis and Gray), 2005;32:152
Venous stasis ulcers in the patient who is obese (Gates and Davis [commentary] and Evans [commentary]), 2005;32:421
Letter to the Editor
Board of Directors votes to dissolve the United Ostomy Association, Inc., 2005;32:218
The Braden Scale for predicting pressure sore risk: reflections on the perioperative period (Bergstrom et al), 2005;32:79
Diarrhea in acutely ill patients (Faller), 2005;32:217
Managing fecal incontinence (Watterworth and Ryzeuski), 2005;32:217

M
Malnutrition
Cancer anorexia-cachexia syndrome: psychological effect on the patient and family (McClement), 2005;32:264
Mastectomy
Management of radiation dermatitis in a patient after mastectomy (McDougall et al), 2005;32:337
Moisture lesions
Statement of the European Pressure Ulcer Advisory Panel—pressure ulcer classification: differentiation between pressure ulcers and moisture lesions (Defloor et al), 2005;32:302

N
Negative pressure wound therapy
Guidelines for managing pressure ulcers with negative pressure wound therapy (Gupta [ed] et al), 2005;32:S1-S15 (Jan-Feb)
Home care management of an ostomy within a dehisced abdominal wound (Brogna and Hocevar [commentary]), 2005;32:200
Nursing homes
Comparison of pressure ulcer treatment in long-term care facilities: clinical outcomes and impact on cost (Narayanan et al), 2005;32:163
Nursing theory
The ramifications of perspective: how theory focuses research, data, and practice (Morse), 2005;32:93
Nutritional assessment
Nutritional assessment in chronic wound care (Evans), 2005;32:317

O
Obesity
Budding bariatrics (Conroy) (Guest Editorial), 2005;32:356
Care of the patient who is obese with an ostomy (Colwell and Fichera), 2005;32:378
Current issues and challenges in the management of bariatric patients (Bell), 2005;32:386
Meeting bariatric patient care needs: procedure and protocol development (Wright and Bauer), 2005;32:402
My journey from there to here (Clare), 2005;32:430
Surgical treatment for obesity: ensuring success (Andris), 2005;32:393
Venous stasis ulcers in the patient who is obese (Gates and Davis [commentary] and Evans [commentary]), 2005;32:421

Ostomy
Care of the patient who is obese with an ostomy (Colwell and Fichera), 2005;32:378
Counseling patients undergoing urinary diversion: does the type of diversion influence quality of life? (Gray and Beitz), 2005;32:7
Descriptive study of peristomal complications (Ratliff et al), 2005;32:33
Health-related quality of life among persons living in Japan with a permanent colostomy (Ito et al), 2005;32:178
Home care management of an ostomy within a dehisced abdominal wound (Brogna and Hocevar [commentary]), 2005;32:200
Information to the relatives of people with ostomies: is it satisfactory and adequate? (Persson et al), 2005;32:238
Sexuality and the person with a stoma: implications for comprehensive WOC nursing practice (Junkin and Beitz), 2005;32:121
Thirty years of experience living with a continent ileostomy: bad restrooms—not my reservoir—decide my life (Berndtsson et al), 2005;32:321
What treatments are effective for the management of peristomal hernia? (Gray et al), 2005;32:87
Outcomes
Comparison of pressure ulcer treatment in long-term care facilities: clinical outcomes and impact on cost (Narayanan et al), 2005;32:163
Effectiveness of a computer-based system to deliver a continence health promotion intervention (Boyington et al), 2005;32:246
The ramifications of perspective: how theory focuses research, data, and practice (Morse), 2005;32:93
Overactive bladder
Assessment of the patient with an overactive bladder (Newman), 2005;32:S5(May-June, Supp. 1)
Behavioral interventions for the patient with overactive bladder (Wyman), 2005;32:S11(May-June, Supp. 1)
Differential diagnosis of high-tone and low-tone pelvic floor muscle dysfunction (Fletcher), 2005;32:S10(May-June, Supp. 1)
Does biofeedback improve the efficacy of pelvic floor muscle rehabilitation for urinary incontinence or overactive bladder dysfunction in women? (Gray and David), 2005;32:222
Overactive bladder: an overview (gray), 2005;32:S1(May-June, Supp. 1)
Pharmacologic management of overactive bladder (Taylor), 2005;32:S16(May-June, Supp. 1)
Oxybutynin
Pharmacologic management of overactive bladder (Taylor), 2005;32:S16(May-June, Supp. 1)

P
Pain management
Do topical analgesics reduce pain associated with wound dressing changes or debridement of chronic wounds? (Evans and Gray), 2005;32:287
Patient education
Development, implementation, and evaluation of a continence education package in acute and subacute care settings (O'Connell et al), 2005;32:101
Patient perspectives
There's a will . . . but is there a way? Patient perspectives in healthcare research, development, and decision making (Buckley and Bliss [commentary]), 2005;32:53
Patient satisfaction
Information to the relatives of people with ostomies: is it satisfactory and adequate? (Persson et al), 2005;32:238
Pediatric population
Budding bariatrics (Conroy) (Guest Editorial), 2005;32:356
Management of infants with ulcerated hemangiomas (Ceballos and Rogers [commentary]), 2005;32:58
Use of catheter-securement device in pediatric patients with decreased skin integrity (Weber et al), 2005;32:269
Peer review
Keeping up journal integrity: the peer review process (Moore) (Editorial), 2005;32:3
Pelvic floor muscle dysfunction
Differential diagnosis of high-tone and low-tone pelvic floor muscle dysfunction (Fletcher), 2005;32:S10(May-June, Supp. 1)
Pelvic floor muscle training
Behavioral interventions for the patient with overactive bladder (Wyman), 2005;32:S11(May-June, Supp. 1)
Does biofeedback improve the efficacy of pelvic floor muscle rehabilitation for urinary incontinence or overactive bladder dysfunction in women? (Gray and David), 2005;32:222
Pelvic floor muscle training with biofeedback and bladder training in elderly women: a feasibility study (Perrin et al), 2005;32:186
Pelvic relaxation
Pessary treatment of pelvic relaxation (Nguyen and Jones), 2005;32:255
Perception
Information to the relatives of people with ostomies: is it satisfactory and adequate? (Persson et al), 2005;32:238
Peristomal complications
Descriptive study of peristomal complications (Ratliff et al), 2005;32:33
Peristomal hernia
What treatments are effective for the management of peristomal hernia? (Gray et al), 2005;32:87
Pessary
Pessary treatment of pelvic relaxation (Nguyen and Jones), 2005;32:255
Pharmacologic therapy
Do topical analgesics reduce pain associated with wound dressing changes or debridement of chronic wounds? (Evans and Gray), 2005;32:287
Pharmacologic management of overactive bladder (Taylor), 2005;32:S16(May-June, Supp. 1)
Photography
Get the picture! Developing a wound photography competency for home care nurses (Buckley et al), 2005;32:171
Physical therapy
Pelvic floor muscle training with biofeedback and bladder training in elderly women: a feasibility study (Perrin et al), 2005;32:186
Pilot study
Development of a risk assessment tool for intraoperative pressure ulcers (Price et al), 2005;32:19
Preceptorship
Promoting effective preceptorship experiences (Yonge et al), 2005;32:407
Pressure ulcers
The Braden Scale for predicting pressure sore risk: reflections on the perioperative period (Letter) (Bergstrom et al), 2005;32:79
Comparison of pressure ulcer treatment in long-term care facilities: clinical outcomes and impact on cost (Narayanan et al), 2005;32:163
Development of a risk assessment tool for intraoperative pressure ulcers (Price et al), 2005;32:19
Guidelines for managing pressure ulcers with negative pressure wound therapy (Gupta [ed] et al), 2005;32:S1-S15 (Jan-Feb)

Pressure ulcer prevention and management strategies in Turkey (Acaroglu and Sendir), 2005;32:230
Research comparing three heel ulcer-prevention devices (Gilcreast et al), 2005;32:112
Statement of the European Pressure Ulcer Advisory Panel—pressure ulcer classification: differentiation between pressure ulcers and moisture lesions (Defloor et al), 2005;32:302
Psychosocial issues. *See also* **Stigma/stigmatization**
Cancer anorexia-cachexia syndrome: psychological effect on the patient and family (McClement), 2005;32:264

Q
Qualitative description
Enhancing rigor in qualitative description: a case study (Milne and Oberle), 2005;32:413
Quality of care
Information to the relatives of people with ostomies: is it satisfactory and adequate? (Persson et al), 2005;32:238
Quality of life
Counseling patients undergoing urinary diversion: does the type of diversion influence quality of life? (Gray and Beitz), 2005;32:7
Health-related quality of life in patients with diabetes with foot ulcers: literature review (Goodridge et al), 2005;32:368
Thirty years of experience living with a continent ileostomy: bad restrooms—not my reservoir—decide my life (Berndtsson et al), 2005;32:321

R
Radiation dermatitis
Management of radiation dermatitis in a patient after mastectomy (McDougall et al), 2005;32:337
Research. *See also* **Spotlight on Research**
Barriers to funding research in urinary incontinence (Moore) (Editorial), 2005;32:219
Enhancing rigor in qualitative description: a case study (Milne and Oberle), 2005;32:413
The ramifications of perspective: how theory focuses research, data, and practice (Morse), 2005;32:93
Research comparing three heel ulcer-prevention devices (Gilcreast et al), 2005;32:112
There's a will . . . but is there a way? Patient perspectives in healthcare research, development, and decision making (Buckley and Bliss [commentary]), 2005;32:53
Rigor
Enhancing rigor in qualitative description: a case study (Milne and Oberle), 2005;32:413
Risk assessment
Development of a risk assessment tool for intraoperative pressure ulcers (Price et al), 2005;32:19

S
Self-care
Thirty years of experience living with a continent ileostomy: bad restrooms—not my reservoir—decide my life (Berndtsson et al), 2005;32:321
Self-management
Effectiveness of a computer-based system to deliver a continence health promotion intervention (Boyington et al), 2005;32:246
Sexuality
Sexuality and the person with a stoma: implications for comprehensive WOC nursing practice (Junkin and Beitz), 2005;32:121
Skin integrity
Use of catheter-securement device in pediatric patients with decreased skin integrity (Weber et al), 2005;32:269
Social interaction
Breaking the cycle of stigmatization: managing the stigma of incontinence in social interactions (Garcia et al), 2005;32:38
Solifenacin
Pharmacologic management of overactive bladder (Taylor), 2005;32:S16(May-June, Supp. 1)
Spotlight on Research
Preparing a grant proposal: Part 2. Reviewing the literature (Gray and Bliss), 2005;32:83
Preparing a grant proposal: Part 5. Organization and revision (Colwell et al), 2005;32:291
Preparing a successful grant proposal: Part 1. Developing research aims and the significance of the project (Beitz and Bliss), 2005;32:16
Writing a grant proposal: Part 1: Research methods (Engberg and Bliss), 2005;32:157
Writing a grant proposal: Part 2. Research methods—part 2 (Bliss and Savik), 2005;32:226
